

EXPERIENCE

Youngsoft, Inc., UI/UX Designer

11/14/2016 | Present

I work with clients to provide successful user experiences using custom development within the Liferay portal environment. Java-based CMS, custom theme development, responsive development, cross browser compatibility, project management, and logo creation. Recently, our team launched Materion Heraeus, a website to streamline business communication with international partners and clients.

Lansing Community College, Records Specialist

08/23/2010 | 11/10/2016

As a records specialist, I effectively communicated registrar and financial aid problem solving and concerns with staff, students and administrators. Also, I guided students through the processes of policies and procedures to be successful in their college experiences.

Rizzi Designs, LLC, Animation and Web Design Intern

08/26/2013 | 12/12/2013

I assisted the Rizzi team with internal and client based animations and web design projects, as well as strategizing successful marketing objectives. 2-D and 3-D animations include models, texturing, lighting, camera moves, and rendering. The animations created get put into other projects, like video and web, to promote the company with marketing campaigns. During my internship, I worked with another intern partner to create the opening of the Old Town Marquee commercial for advertising the venue.

Habitat for Humanities, Community Worker

09/14/2009 | 09/18/2009

Working with construction to help a family in need. This event was held with Wal-Mart Stores and I helped with drilling, framing, and window installation.

Wal-Mart Stores, Inc., Photo Department Manager

07/31/2004 | 09/21/2009

While working as a manager, I supervised six associates from various departments. My responsibilities included scheduling, perpetual inventory, ordering supplies, order tracking, conference calls, monthly budget review, maintain equipment, and overall management of the photo department. I helped with human resources, interviewing new hires for other departments in the company.

Wal-Mart Stores, Inc., Photo Center Specialist

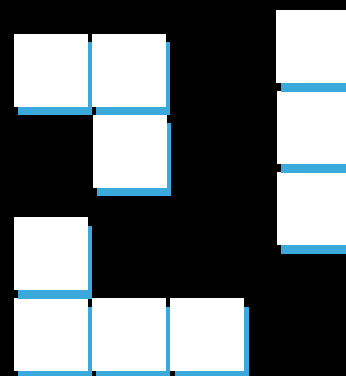

01/2001 | 06/2004

Customer service with photography and all other aspects of photo equipment, which would including daily maintenance of machinery and operation

EDUCATION

Kendall College of Art and Design of Ferris State University, Digital Media, BFA

09/2015 | 05/2017

• Web Content Administrator

Reorganization of directory structure and redesign of primary visual assets launched in coordination with the program re-branding. I published and maintained student work as well as posting new student work to the social media group for the digital media department.

• New DAD program logo

As part of the reorganization in the digital media program, I redesigned the original digital media logo for the department because of name change, which is now called digital art and design.

• User Testing

As part of my interaction design group, we observed and created a formal report capturing the user's interaction with the media including Tilt Brush VR, Code.org, Planet3, and Battling Extinction.

• Sensiware

As part of my interaction design group, we created a wearable device mock-up site to help students stay focused during class time. The wearable technology will improve learning and teaching for a neurodiverse population, and implementing principles of universal design to ensure that all students can benefit.

• Simuli

I worked as the lead graphic designer creating concept development UX/UI assets and branding for the VR simulation. This Google Cardboard app will provide a VR experience for middle, high school and college students that simulates, in the first person, the feeling of some of the challenges that neurodiverse students face in a classroom setting.

Lansing Community College, Computer Graphics, Multimedia AAA,

General Associates GA, Digital Art Foundation CC

01/2001 | 08/2013, 05/2015

While attending Lansing Community College, I have been on the President's List (Spring 2010, Fall 2014, and Spring 2015) and Dean's List (Spring 2011).

Everett High School, High School Diploma

09/1996 | 05/2000

As an honor student at Everett, I also attended Hill Center for Academics and Technology for two years in Visual Imaging. This helped me create better skills in art with computers and work with different programs like Adobe Photoshop and Adobe Illustrator. I did various projects for teachers and departments in the school.
